

HARJAS SINGH

Brampton, ON | (647) 990-8528 | harjassi@sheridancollege.ca | [LinkedIn](#) | [Github](#)

PROFESSIONAL SUMMARY

Motivated Computer Systems Technology student at Sheridan College (GPA 3.63) with hands-on experience in full-stack web development, system troubleshooting, and IT support. Skilled in JavaScript, React, Node.js, and SQL, with practical exposure to hardware diagnostics, network configuration, and Agile environments. Elected Board of Governors Representative and 2nd place finisher at Skills Sheridan 2026. Seeking an IT co-op where I can contribute across development and support functions.

EDUCATION

Sheridan College, Brampton ON

Advanced Diploma in Software Development & Network Engineering

Expected: Dec 2027

Cumulative GPA: 3.63

EXPERIENCE

Software Developer | Co-op

Jan 2026 – Apr 2026

Sanskrita Bharati

Mississauga, ON

- Developed interactive web-based educational applications using JavaScript and ZIM.js, improving user engagement and functionality by 15%.
- Integrated third-party APIs and services as per project specifications, facilitating seamless data flow and enhanced application functionality.
- Followed full SDLC practices from requirements analysis and design through development, testing, and deployment ensuring structured and quality-driven delivery.
- Debugged application issues and improved performance through systematic troubleshooting.
- Utilized Git for version control, ensuring smooth collaboration and code integration.

Customer Service Representative

Sep 2025 - Feb 2026

Sikh Virasat, Retail Store

Mississauga, ON

- Provided front-line technical support for in-store POS terminals, printers, and Wi-Fi connectivity issues troubleshooting hardware and network problems to minimize downtime.
- Delivered exceptional client service in a fast-paced environment, demonstrating strong communication, patience, and problem-solving skills.
- Processed billing transactions using store systems, maintaining accuracy across all billing operations.

TECHNICAL SKILLS

- **Programming & Technologies:** Java, JavaScript, HTML, CSS, Node.js, Express.js, MongoDB.
- **IT Support & Operations:** System Troubleshooting, Endpoint Support, Incident Resolution, Hardware & Software Support, System Maintenance, Connectivity Troubleshooting, Printer & Peripheral Support.
- **Tools & Platforms:** Microsoft Office Suite, Outlook, Teams, SharePoint, Git, GitHub, JIRA.
- **Concepts:** SDLC, Agile Development, Application Support, Technical Documentation, Monitoring & Troubleshooting, QA Testing, Deployment Support, Requirement Analysis.
- **Soft Skills:** Communication, Collaboration, Analytical Thinking, Problem Solving, Adaptability, Time Management, Organization.

PROJECTS

Capstone Management System | *Sheridan Skill First 2024* | [Github](#)

- Analyzed project needs and documented system workflows before developing a solution.
- Built dynamic frontend pages (project listings, student registration, dashboard) using HTML, CSS, JavaScript, and Bootstrap for a responsive and professional design.
- Integrated MongoDB for secure and persistent data storage for registration and feedback page.

AWS Cloud Fundamentals Lab Project | Academic

- Completed hands-on labs focusing cloud services including EC2, S3, IAM, and basic networking concepts.
- Practiced launching and configuring EC2 instances to understand cloud infrastructure and virtual machines.
- Worked with Amazon S3 to create storage buckets, upload objects, and secure file access permissions.
- Explored AWS networking fundamentals like security groups and basic inbound/outbound traffic rules.

TrueTrail – Tourism Web App | *BramHacks 2025 Hackathon* | [Github](#)

- Developed a responsive web application that promotes eco-friendly and personalized travel experiences.
- Built with React.js, Vite, Node.js, HTML/CSS, and OpenAI API for intelligent route and attraction recommendations.
- Wrote modular, reusable code and followed clean coding practices.
- Focused on intuitive design, real-time content rendering, and seamless user experience.

AWARDS & ACTIVITIES

- **Board of Governors Representative 2026-2027**, Sheridan College
- **2nd Place – Skills Sheridan 2026** competed in a college-wide technical competition, demonstrating problem-solving, software development, and teamwork skills.
- **True Trail Tourism (BramHacks 2025)**: Collaborated in hackathon to develop “TrueTrail,” a React-based tourism app powered by OpenAI API.
- **Participated in skill Ontario 2026 in IT office software applications competition.**
- **Skill Sheridan event**: Built a full-stack capstone project during the Sheridan Skill First program, applying classroom concepts to real-world problem-solving.
