

HARJAS SINGH

Brampton, ON | (647) 990-8528 | harjassi@sheridancollege.ca | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Software Development & Network Engineering student at Sheridan College (GPA 3.63) with hands-on experience in full-stack development, API integration, and IT support. Proficient in Python, Java, JavaScript, React, SQL, and data structures & algorithms, with practical exposure to cloud services (AWS), Agile workflows, and system troubleshooting. Participated in multiple hackathons with award-winning results. Seeking a co-op role where I can contribute across development, support, and infrastructure functions.

EDUCATION

Advanced Diploma in Software Development & Network Engineering Sheridan College, Brampton ON

Expected: Dec 2027

Cumulative GPA: 3.63

Coursework: Networking Fundamentals, Routing & Switching, Cloud-Enabled Networking, Network Security, Windows OS

- Board of Governors Student Representative (2026-2027)
- 2nd Place, Skills Sheridan 2026; Skills Ontario 2026 Competitor

EXPERIENCE

Software Developer | Co-op

Jan 2026 – Apr 2026

Sanskrita Bharati

Mississauga, ON

- Investigated and resolved technical issues across an existing web application, modifying features and improving stability.
- Translated user-reported needs into technical changes, collaborating with the team on priorities.
- Created and executed test cases to validate fixes before release; used Git/GitHub within an Agile workflow.

Technical Support Associate | Part time

Sep 2025 - Feb 2026

Sikh Virasat, Retail Store

Mississauga, ON

- Responded to user inquiries and resolved hardware, software, networking, and POS issues with timely, accurate action.
- Performed hardware and software installations and configured Windows systems, peripherals, and business applications.
- Maintained logs of support requests and resolution steps, improving issue tracking and operational efficiency.
- Guided staff through technical fixes, building clear communication and customer-service skills.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, TypeScript, Python, C#/.NET, HTML, CSS, SQL, C
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Bootstrap
- **Databases & Cloud:** MongoDB, PostgreSQL, AWS (EC2, S3, IAM)
- **Tools & Platforms:** Git, GitHub, Jira, REST APIs, CI/CD, Microsoft Office Suite, Teams, SharePoint
- **Concepts:** SDLC, Agile/Scrum, DSA, System Troubleshooting, QA Testing, Technical Documentation, Requirement Analysis
- **Soft Skills:** Communication, Collaboration, Analytical Thinking, Problem Solving, Adaptability, Time Management

PROJECTS (More projects at [Portfolio](#) | [GitHub](#))

TrueTrail – Tourism Web App | BramHacks 2025 Hackathon | [GitHub](#)

- Built a responsive web app promoting eco-friendly, personalized travel using React.js, Vite, Node.js, and the OpenAI API for intelligent route and attraction recommendations.
- Wrote modular, reusable code following clean coding practices with a focus on intuitive UX.

Capstone Management System | Sheridan Skill First 2024 | [GitHub](#)

- Built dynamic frontend pages (project listings, registration, dashboard) using HTML, CSS, JavaScript, and Bootstrap.
- Integrated MongoDB for secure, persistent data storage

AWS Cloud Fundamentals Lab | Academic

- Completed hands-on labs with EC2, S3, IAM, and core networking; configured instances, storage buckets, and security groups.
